AFTER TAKING THE Elixir! Elixir

DOCTOR CELEBRATED

REJUVENATING ELIXIR

THIS is altogether a new medicine, the result of medern discoveries in the vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn out systems published by accomplished quacks to the saffering. Dr. Wright, well knowing the deception practised upon the uninitiated, felt it his duty at once to have this Elixir tested by the whole Medical Facult. who, without even one dissenting voice, have given in their afherence to its perfect and undivided control over the whole physical mas when his frame has been reduced, and when all other medicines known to the Pharmaco pasis have been tried in vain. Long thought years of patient investigation, and a suff despectandum determination have crowned the Doctor's efforts, and he now effers the Elixir to suffering humanity as the only thing that can oure the following diseases—namely:

Determination of Blood to the Head, Confused Ideas, Hystoria,

tionsness and Sieeplemeness at Night,
Absence of Muscular Efficiency,
Loss of Appelits,
Posternals. Disorganisation v. Generation, Paipitation of the Heart,

It is quite different from alcoholic preparations. It is not sub-ject to reactions in any shape; it continues to exect its influence gradually and efficiently, as long as the least necessity exists for its pressure.

It is equally powerful and effective, and restores the equilibrium sooner and safer than all the other nedicines which for years have feeded the market, and which are only injurious, in place of assisting or renovating the constitution, for a very good reason, teo, that they are only made from the effusions of minds gnorant of the Medical profession altogether.

No Minerals! Dr. Wright thinks it will to stake his professional character in the fact, that no minerals whatever form the least component arts of the ingredients of his Rejuvenating Elizir—well know by what ruin has been outsided on the community by option and

moreoury.

Generally, to the debilitated. Dr. Wright would say, Never despair. No matter how worn down you may be, no matter how went you are—no matter what the cause may have been—forsake at once whatever has led you to depart from Hygienic principles Rejuvenating Elixir,

And you will soon find yourself a new man—a pride instead of the reverse, to your friends, and a healthy, sound, and worthy another of the human family.

COLAL NOTICE.—The Union and American G

The languration. A Washington correspondent thus describes the

similar ceremonies in past times, the inauguration was a complete failure. It is no exaggeration what-ever to say that the crowd was smaller, procession less imposing, and the affair tamer than any pre-vious inauguration since that of the hero whose chair is now so unworthly filled by the present in-cumbent. The ostentanious lisplay of Federal sol-diery, lack of all manifestations of spplause, and anxious air of every one, save the abolitionists, nusket charged with ball, and every dragoon with trawn sabre ready to loose them upon the popusee at the first symptoms of disaffection. So far the proper time, and by filing exceptions to the award, and demanding the judgment of the court thereon; and still more by his motion to have the case placed on the trial docket, effectually waived, and forever precluded himself from insisting upon the troops were stationed on the roots of Avenue for the purpose of picking off any "insurgents." This may seem almost incredible, but is strictly true. But few on the line of the procession e able to eatch a glimpse at Mr. Lincoln, he bing his face resting steadily in both hands and his carriage being so closely environed by Federal and volunteer troopers, four deep, as to be almost in visible. Not one in a hundred of the spectators up-

o dense was the array of dragoons, and so com-letely did their sabres and plumes conceal him Major General of the Alabama Amry We are glad to know that the Hon. Jeremiah Clemens, of Madison, has been appointed Major General of the regular army of the State of Alabama.

A horse newly put to work, and working in a new lead or tin, derived from the condensers in what harness, or under a new saddle, which touches the vapors are reduced to a fluid form. The question of the regular army of the State of Alabama. The question of the regular army of the State of Alabama. Mexico, and if the worst comes to the worst, we are confident that the Alabama troops will, under his command, do credit to their State. Gen. Clemens leaves this evening for Huntaville, to settle his private business, we presume, previous to entering upon the duties of a soldier. Col. John T. Morgan, of Dallas, and Col. Clint, Davis of Madison, are appointed aides de-camp to Major General Clemens, with the rank of Lieutenant Colonel. We wish the

Whole number of votes polled 1641.

This is a larger vote than was polled at the elec-tion of a delegate on the 4th of February. Mr. Thomas Branch (Union) then received 780; Thomas Wallace (Secession) 427; John Lyon (Union) 809. Total 1466. The gain on the secession vote then The vote yesterday was the largest vote ever polled in Petersburg, except the one given at the Presidential election last fall, when it reached 1800

We have observed with regret, that the Richmond Whig seems to take pleasure in appropriating to its own use the various bit of garbage beliabed forth against South Carolina by an unacrupulous Northern press, and its torged and mendacious correspondence. We have noted, too, with some little of surprise, that the Whig, after gathering and publishing this insidious trash, seldom troubles itself to defecate by correction their foul and noxious libels. In accordance with its municipality. In accordance with its usual course, we see paraded in that journal the rank calumnies of the New York Times, contained in a choice letter of a certain mythical Judge (?) Robert Lyon. Now, if our cotemporary has so great a penchant for this species of literature, as to find the temptation of gulphing it down irresistible, and cannot be prevailed around discover what is appearable, seems or garpanes is valled upon to diegorge what is apparently assimi-lated without difficulty, it should be understood that we have no wish to deprive it of aliment, however gross, or to disturb its digestion, however untidy. But if it be any part of the profession of the Whig to have respect to truth and justice, snother opportunity is here offered of lixiviating and edulcorating a stale and tainted mess of garbage touching South Carolina, which it has seen

appeal in error.

The foregoing is a brief statement of so much of the very novel and extraordinary proceedings set forth in the records, as is essential to be noticed.

The judgment is palpably erroneous. It is as certainly at the option of the defendant to have treated the suit as discontinued by the reference of the cause to arbitrators under the circumstances. And to have availed himself of this right, nothing more was necessary perhaps than a simple motion. But

that either by the express or tacit consent of both parties, the jurisdiction of the court over the case and the parties, might be restored and continued; gave the whole affair more the mournful, appearance of a funeral than of a joyful ceremonial. The RESIGNATION OF ADSUTANT GENERAL COOPER.

The third and sad last day of the voting for and against instructions to our delegate in the Convention, was characterized by much activity. The third and sad last day of the voting for and against instructions to our delegate in the Convention, was characterized by much activity and excitement, but passed off without sty act of violence, although there was considerable ebullition of ill-feeling. Soth parties went to work with a most determined will, and for a long time the voting was about equal. At 11 o'clock, the friends of secession commenced gaining over their opponents and continued gradually to swell the instruction vote, until one o'clock, when the leaders on the other side gave up the contest, and the secessionists had everything cheir own way. The majority, it will be seen is very decisive, and declares in most emphatic and unmistakeable toned, the true position of Petersburg in this great contest which is now being waged in Virginia. When it is recollected that the combined vote given in Petersburg for Union, on the 4th of February last, was 1,039, the powerful reaction that
